Re: Navy CLEAN II Program
Contract N62470-95-D-6007
Contract Task Order (CTO) 0035
Final Additional Evaluation of Site Screening Areas 3, 4, 5, and 21.
Addendum to the Site Screening Process Report
Naval Weapons Station Yorktown (WPNSTA Yorktown)

Dear Ms. Cole:

Enclosed please find one copy of the Final Additional Evaluation of Site Screening Areas (SSA) 3, 4, 5, and 21, Addendum to the Final Site Screening Process (SSP) Report for WPNSTA Yorktown. This Addendum supplements the October 18, 2001 Final SSP Report, and provides additional information on SSAs 3, 4, 5, and 21, including the results of an ecological risk screen for each of these four SSAs.

A draft of this Addendum was submitted on October 23, 2003. The U.S. Environmental Protection Agency (USEPA) Region III provided comments on November 20, 2003, and responses to these comments have been included with this submittal. Please note that these comments were also reviewed by the team and were approved during a March 29, 2004 teleconference.

This submittal also includes a SSA Decision Signature Page that documents the final disposition of all 10 SSAs included in the Final SSP Report. This signature page will need to be signed by the Navy, USEPA Region III, and the Virginia Department of Environmental Quality (VDEQ).

One additional copy of this document has been sent to Ms. Bonnie Capito for the Administrative Record, four copies of the work plan has been sent to the USEPA Region III; two copies have been sent to Virginia VDEQ and two copies have been sent to WPNSTA Yorktown. In addition, one copy of the Addendum has been sent to Mr. Matt Schulze of CH2M Hill, Inc.

Baker appreciates the opportunity to provide support to LANTDIV and WPNSTA Yorktown. If you have any questions regarding this deliverable, please contact me at (412) 269-2041 or Don Joiner, Activity Coordinator, at (757) 631-5416.

Sincerely,

BAKER ENVIRONMENTAL, INC.

Dave Martin
Project Manager
